Quick-Change
PALLET CHUCK
 FOR CNC MILLING

"SPEED TO COMPETE, FLEXIBILITY TO ADAPT"

- The SEGEN Quick-Change Pallet Chuck was designed by Moldmakers, for Moldmakers.
- Gain the competitive advantage with 360 degrees of clamp free mold machining access. Save costly machine time by preparing stock on the bench. Mill one job while another is being prepared.
- Mount mold stock, workholders, or dedicated fixtures to pallets creating a flexible CNC workstation, ready for any emergency.
- Speed set-up, with pallets that exchange in seconds. Quickly move work from machine to machine while maintaining a single home position.

A smart, time-saving alternative to clamps and bolts!
